

DEER VALLEY MEDICAL CENTER EXPANSION PROJECT

Phase one of Deer Valley Medical Center expansion project begins Wednesday, Aug. 2.

Phase one will involve construction of the support services building, providing:

- A new one-story building with nearly 23,000 square feet of space.
- A larger loading dock and dedicated entrance.
- Additional space to house:
 - Supply chain
 - Facilities
 - EVS
 - Bed Maintenance
- A tunnel from the building to Pavilion 1 basement, allowing for easier and more efficient service delivery.

Phase one timelines and impact:

Dates:	Construction phase:	Impact:
Wednesday, Aug. 2 to Wednesday, Aug. 9	Installation of temporary cautionary signage.	No impact to team members, patients or traffic flow.
Thursday, Aug. 10	Widening of curbs on the south side of the ambulance bay.	No impact to team members, patients, ambulances or fire department.
Thursday, Aug. 10 through Aug. 2024	Installation of fence and construction begins at SSB perimeter on northeast corner of campus.	Starting Thursday, Aug. 10, the access road and parking lot on the northeast corner of the campus will be blocked off. The existing parking garage will accommodate the loss of parking spaces during Phase one. Continuing updates to parking will be shared in future communications
