

HonorHealth Scottsdale Shea Medical Center
Parking garage construction
Patient talking points

General messages:

- Starting on Monday, Feb. 3, HonorHealth Scottsdale Shea Medical Center will begin construction on a new parking garage.
- The new garage will be located near the main hospital entrance off of 90th Street where our visitor parking lot is currently.
- During construction of the garage, there will be changes to parking and valet services surrounding the hospital.
- Valet services will move on Monday, Feb. 3, and the parking lot will close at the end of the day on Tuesday, Feb. 11.
- Signage will help guide you to the new location of valet services, which will be on the southeast side of the hospital building off of 92nd Street. Valet services are free.
- Patient pick up and drop off will continue at the main hospital entrance for the duration of the project. After drop off, please proceed to parking on east side of the building or valet services located on the southeast side of the hospital building.
- You can still access the hospital from any road entrance and follow the signage to valet parking, however, the most direct route to the new valet parking area is off of 92nd Street by taking Cochise Drive into the campus.
- Parking attendants will also have a presence around the campus to help direct you to parking.
- Valet hours will be expanded to accommodate the increased need for services to assist you with parking on campus. The new hours will be 7 a.m. to 8 p.m., Monday through Friday.
- Valet services will also have a golf cart to assist you with getting to the main hospital in a timely and safe manner.
- On Saturdays and Sundays, visitors can park in any designated visitor parking lot.

- Parking and valet in front of the emergency department will remain unchanged.
- For more information, please visit honorhealth.com/sheaconstruction.
- The new parking structure is slated to open in the fourth quarter of 2025 and will feature 472 spots, which is an increase of 282 spots from what is currently available in that visitor parking lot today.
- Thank you for your patience during this process as we work to make parking easier and more convenient for patients and visitors.

Maternity-specific messages:

- To minimize disruptions for our maternity patients, if you are coming to HonorHealth Scottsdale Shea Medical Center for labor and delivery services, you are still able to access the main hospital entrance for drop off and pick up.
- After you are dropped off, your family member may park in the reserved laboring parents parking area by the main entrance. If the lot is full, they should follow the signs to valet.
- If you are a maternity patient coming to HonorHealth Scottsdale Shea Medical Center for tours or classes, please use valet services so that the front entrance and parking area remains reserved for moms in active labor.

Surgery-specific messages:

- For pre-admission testing, please use the free valet service on the southeast side of the building.
- If your surgery or procedure is scheduled to take place inside the main hospital building, you can have a family member or friend drop you off at the main hospital entrance or you can use the free valet parking service on the southeast side of the building.
- If your surgery or procedure is scheduled for the Piper Surgery Center, parking is still available in the front of the building. If the lot is full, please use the free valet service on the southeast side of the main hospital building.
