

HONORHEALTH SCOTTSDALE SHEA MEDICAL CENTER CONSTRUCTION

Parking changes due to construction project

Construction has started on a new parking garage at HonorHealth Scottsdale Shea Medical Center. The new garage will be located near the main hospital entrance off of 90th Street where our visitor parking lot used to be.

The hospital and Emergency Department remain open during construction.

During construction, there are changes to parking and valet services. For our surgery/endoscopy/cath lab patients:

- For pre-admission testing, please use the free valet services on the southeast side of the building. Hours are 7 a.m. to 8 p.m., Monday through Friday. Signage is posted to guide you to the new valet location.
- If your surgery or procedure is scheduled to take place inside the main hospital building, you can have a family member or friend drop you off at the main hospital entrance or use valet.
- If your surgery or procedure is scheduled for the Piper Surgery Center, parking is still available in front of the building. If the lot is full, please use valet.

If you have visitors come during your stay, please have them use our free valet services, which is now located on the southeast side of the hospital building off of 92nd Street. While the hospital is still accessible from any road entrance, the most direct route to the new valet parking area is off of 92nd Street by taking Cochise Drive into the campus. On Saturdays and Sundays, visitors can park in any designated visitor parking lot.

Thank you for your patience during this process.
